

## City of Chicago Fire Hydrant Inspection

During the month of August and September the Chicago Fire Department will be conducting its annual inspection of fire hydrants in Chicago to ensure that they are working properly. During the inspection sediment released into the water main system may cause your tap water to become discolored or rusty in appearance. The quickest way to resolve this issue is to run your cold tap water until clear. If after 30 minutes your water has not cleared please call the Water Quality Surveillance Section at 312.744.8190 during regular business hours or 311 if it is after hours.

### Security Tip of the Month

**From Director of Security John Schmid**

The City of Chicago prohibits smoking within 15 feet of any building entrance. Please keep this in mind as a courtesy to others.
